Accredited Defensive Driving Organization

What are the Defensive Driving Course's?

Our aim is to engage vehicle users to be an active participant through adult coaching methodologies whilst identifying safety gaps and then delivering the education in your learning style (797 units, Australia's most advanced competency based Curriculum) our success is selecting the delivery method that matches your learning style, we will draw from an extensive learning suite. Combining Australia's most advanced curriculum and effective delivery methodology ensures every person will learn to drive safety. Together we will empower you to achieve ZERO. We are having Significant results for p platers who think its easy!

We will select and train a safe procedure that allows you to automate safe interaction, managing all the risks.

We will then ensure you are able repeat the process in live environment's cementing a foundation, which you will turn into an

Vision Zero

Road Safety Educators Australia has adopted the **Vision Zero** philosophy developed in Sweden

Our goal is to have zero road fatalities across Australia and Countries that adopt our Education Syllabus. The Road Safety Educators Australia Driver Training Program affords Vision Zero, effective success!

automated driving process for each risk.
Continuous self-calibration

Does the Defensive Driving Course produce safer p plate drivers?

©Road Safety Educators Aus. 2016

Research has shown that our Education program when completed significantly reduces crash rates for new drivers.

In their first six months of licensed driving, our graduates have a significantly lower crash rating than all other new drivers, In contrast Australians aged 18 to 25yrs have a 30% increased risk³ and are over represented in vehicle serious injuries across Australia.

Why is our Defensive driving program, So Effective?

Overwhelming feedback has told us that we changed their driving from “thought they were driving safely but actually had no idea” to managing others risks and their own because the training was delivered in live and dynamic (real) environments, in a methodology that they understood and could turn into safe actions, it made them not only aware of the risks that they had never realized existed, but they now had been equipped with a safe manageable process for each risk, which in turn made them feel less anxious because they now understood what might happen and had safety options.

" I think it's safe" was never a safe option "I know it's safe because I understand the risk and I am actively applying safe driving processes"

- ✓ Recognise where, why and how motor vehicle crashes occur,
- ✓ Proactively utilise safety strategies,
- ✓ Implement simple and effective risk reducers through knowledge gathering, to minimise the risk of being involved in a motor vehicle related crash, regardless of who is at fault.
- ✓ Self-calibrate Vision zero", "Drive Safety", "Exit strategy" and "What If" processes.

Who are Road Safety Educators Australia Trainers?

Road Safety Educators, Australia trains high caliber professionals to become driving instructors or as we prefer to be called, "Road Safety Educators". **Upgrade to an accredited road safety educator**

Our educators are at the very top of their field. They have undertaken significantly more training (2.5years) more than driving instructors who receive as little as 30 minutes They gain a comprehensive education in delivery methodologies, identifying clients learning styles and tailoring these to an effective delivery methodology option, matched to environments and learning outcomes, referencing Australia's most effective and comprehensive Driver Training syllabus that ensures learning becomes a safe action!

Road Safety Educators work in close partnership with client's supervisors, utilizing e-learning to share the latest road law updates and training techniques as well as offering full back up and support. In car training is offered to

assist supervising drivers in how to impart knowledge to your novice driver, so they can put the thought into a safe action.

Only when a thing produces action can it be said to have been truly learned. "Confucius"

Students are often taken out of the car to observe and analyze live processes that most drivers never master, in areas such as vehicle body language, gap selection processes for safe interaction with traffic streams, and every other process that makes driving safe. The **knowledge** they acquire through this process lays the **Foundation** for safe driving throughout their lives.

Factors such as personal risk taking, training methodology, learning style, environmental risk, distractions, vehicle dynamics, road law, continuous calibration, eco driving, risk management, interaction with other road users and the driving environment, have all been built into the curriculum.

Crash reate are rising across Australia and Young drivers are the most vulnerable. We have developed these courses to offer you a safer option.

- ✓ **Knowledge** - Provide the criteria in a methodology that is understood.
- ✓ **Foundation** – demonstrate the criteria as an action in a tailored live environment
- ✓ **Automation** – ability to repeat a safe process in all live environments.

Course Details: Life Changing Education

Cost: \$243.00

Valid For 12 -mths

2-hour course 1 on 1 in live and dynamic environments.

Tailored to your needs from 797 units of performance based processes:

- ✓ Defensive driving work book
- ✓ E-learning tools for parents, supervisors and course participants.
- ✓ Latest road law updates.
- ✓ Freebees, discounts and more
- ✓ Top 5 crash situations are managed
- ✓ Top 5 crash causes are trained
- ✓ Safe car purchasing information, for teenagers and parents.
- ✓ Safe Following distance trained.
- ✓ Country roads and the risks

Payment methods

- Direct debit. Cash, Credit cards. Accounts. PayPal.
